DEMOCRATS OPPOSE "DRYS"

New Yorkers Adopt Platform Urging Repeal of Eighteenth Amendment

Albany, N. Y., Feb. 27.—A platform declaring unalterable opposition to Federal prohibition and urging the speedy repeal of the Eighteenth amendment was adopted by unanimous vote of the Democratic State convention. Immediate ratification of the peace treaty and league of nations covenant also was urged in the platform. The prohibition plank reads:

"We are unalterably opposed to prohibition by Federal amendment. We believe it is an unreasonable interference with the rights of the States as guaranteed by the Constitution. We feel that the recent enactment was the imposition of the ideas of an active minority against the wishes of the great majority of the American people.

"We therefore declare for its speedy repeal, and, to the end that the personal liberty of the people of our State may be thoroughly safeguarded until such time as this repeal may be brought about. We declare the right of our State in the exercise of its sovereign power to so construe the concurrent clause of the Eighteenth amendment as to be in accord with the liberal and reasonable views of our people."

A lively debate preceded the adoption of the platform, but there was virtually no division of sentiment on the prohibition question. The "dry" amendment had no friends, even the women voting against it.

SLAIN WITH HUSBAND

Los Angeles, Cal., Feb. 27.—Miss Florence Housel, 50, owner of the Huntington Hal lSchool for Girls in South Pasadena, near here, was shot and killed in her room by an unidentified assailant, who then piled excelsior in the kitchen and set fire to the building. The fire was discovered by Miss Housel's father, aged eighty, who extinguished the flames.

Examination showed that the slayer had entered the house through a pantry window by forcing the locks. The body of W. M. Bowen, husband of the school housekeeper, was found later in a school room with a bullet through the heart. Mrs. Bowen said she and her husband had been separated and that he had threatened her.

WILSON FIRM ON ADRIATIC ISSUE

Stands Pat on Every Proposition of Ultimatum of January 14

PEACE TREATY'S FATE

Withdrawal Certain if Reply—Makes no Concessions—Exchanges Sharp and Decisive.

The State Department published yesterday the diplomatic exchanges between the Supreme Council sitting in London and President Wilson upon the settlements in the Adriatic. It is disclosed in the notes that this Government refused in terms of striking positiveness to be a party to the peace of Europe if that peace is to be founded upon the old order of land grabbing at the expense of weak peoples, subjection of small nations to the will of the more powerful and national selfishness.

The President, in rejecting the agreement made by the Supreme Council for the disposition of Fiume and Albania, outlined in a memorandum under date of January 14, candidly threatened to withdraw from further consideration by the Senate both the Treaty of Versailles and the separate treaty with France for the latter's protection against Germany.

The President demanded adherence to the Adriatic settlement as outlined in a memorandum dated December 9 and subscribed to by this Government. If this proposal, which had been accepted by all parties at interest, in repudiated the United States will feel impelled to wash its hands of the whole business, withdrawing all guarantees for the execution of the peace terms, the President asserted.

The Premiers, in their answer to Mr. Wilson, expressed amazement that he should thrust himself into a situation which developed since America withdrew from participation in the Supreme Council and that he should now seek to disrupt arrangements which have been made which seem to satisfy practically all interests involved.

The Premiers also threatened to resort to the terms of the secret treaty of London, made at the time Italy entered the war, if subsequent plans for the adjustment of Adriatic problems are thrown into disarray by President Wilson. This treaty Mr. Wilson repeatedly has denounced and as often has demanded that because of changed conditions it be disregarded.

The Allied Governments "view with consternation" the threat of President Wilson to withdraw the peace treaty and that with France from consideration by the Senate, thereby making necessary a separate peace with Germany and leaving America totally independent of the Allies with regard to the general peace with the Central Powers.

The President in his latest answer to the Entente Premiers stands pat. He refuses to yield upon any single proposition. He makes a final argument for the right of self-determination on the part of all peoples, the right of weak nations to exist and to thrive and the right of Jugo-Slavia and Albania particularly to a place in the sun.

Stiff opposition was made to the resolution calling for a prohibition referendum, many members of the party present holding passage of such a measure would alienate thousands of voters who favor rigid enforcement of the eighteenth amendment.

SENATE PASSES DEANS HOUSE BILL

Prohibition Department to End September 1, 1922.

HARD ON THE PARSONS

"Dirtiest Regime, Politically," Leedy Says, "During Past Forty Years in Virginia."

Richmond, Feb. 27.—By a vote of 33 to 3, the senate yesterday concurred in the Deans substitute for House Bill No. 73, which provides for abolition of the prohibition department September 1, 1922.

An amendment offered by Senator Walter Tansill Oliver which set the date for abolition of the department one year earlier than the Deans substitute, was debated for two days and rejected by a vote of twenty-two to fourteen.

An amendment offered by Senator Robertson striking out the clause abolishing the department was defeated by a vote of nineteen to eighteen.

"The dirtest regime politically in 10 years in Virginia was when the political parsons' injected themselves into the politics of the State."

Under the provisions of the Robertson good roads bill, which has just passed the Senate, counties desiring to construct any part of the State highway system within their boundaries will be permitted to do so and will be later reimoursed.

The State highway commission is authorized to make repayments to those financing the work annually as funds are available and are appropriated for such construction or reconstruction.

A subcommittee of the house committee on currency and commerce is looking into the merits of a bill which is designed to dissolve the Virginia Pilots Association's alleged monopoly. The association is declared to be a closed corporation, admitting only its own apprentices. The bill would admit all pilots who have had as much as three years' experience and who hold United States pilots' licenses.

With the walkout spreading from the Paris-Lyons-Mediterranean line, it was announced officially that the government will call upon the army to help operate trains. Transportation troops will be used to keep food supplies moving.

A. H. S. DEFEATS INGRAM

Last evening the basketball team of the Alexandria High School defeated the strong and fast Ingram Memorial quint. The game was one of the best ever witnessed on the High school floor.

West and Knight of the High School played excellently at the positions of guards. The passing of Petitt, Dreifus and Midkiff was superb. The scoring of the A. H. S. lads was as follows: Dreifus, 10 points; Midkiff, 6 points; Knight, 2 points, and Petitt, 4 points.

Cameron starred for the opponents, he having scored half of their goals.

The Ingram team is a fast and well trained aggregation and the High School lads deserve a great deal of credit for defeating a team with such a good reputation.

The final score was A. H. S. 22, Ingram, 16. Time of quarters, 10 minutes. Referee, Cockrill.

The third team of A. H. S. also played, and defeated the crack Colonial Athletic Club by a score of 6 to 5.

READ AND WEIGH WELL

It is announced by Collector R. C. L. Moncure that no extension of time will be granted this year in which to file income tax returns. All are required, regardless of the size of the firm, or the small amount of business done by them, to file an income return by March 15th.

Every partnership in existence, whether it is two men engaged in the grocery business, running a barber shop, pressing club, garage or a mammoth wholesale house, must file a return for the business and also their individual returns.

Everybody who had an income during 1919 must determine whether his or her net income was sufficient in amount to require an income tax return. The best way to find out is to get a Form 1040A and follow the instructions printed on it. That form will serve as a reminder of every item of income; and if a return is due, it tells how to prepare and file it.

One of the important points to keep in mind is that a person's net income is found by a computation prescribed in the law, and that each item of income from every source must be considered, unless specifically exempted.

Another thing to remember is that the personal exemption allowed taxpayers by law has no relation whatever to the requirements to file return. This exemption is not to be considered until a person has figured out his net income and determined whether it was sufficient to require him to file a return. Then if a return must be filed, he should read carefully the instructions for claiming exemption, and complete his return.

The penalties will be enforced from March 15th. Failure on your part to receive the necessary blanks will be considered as a reasonable excuse for not enforcing the penalties.

SPEED FIENDS

First Deputy Attorney General Gawthrop in an opinion to Ben G. Eynon, registrar of the automobile division of the Pennsylvania Highway Department rules "testimony of two witnesses is not required in proceedings against violators of the motor vehicle speed laws except in cases where vehicles are timed on a measure stretch of highway. He says: "There would seem to be no reason why State or local officers using motorcycles or motor vehicles equipped with accurate speedometers, should not detect, make complaints against and secure convictions of violators of the law in this respect.

The Alexandria authorities have always ruled on this principle. Speeders are generally contentious. Sometimes automobiles rushing recklessly through the streets are intercepted by policemen who time them. The time allowed for passing over a street running north and south is 24 seconds; those running east and west 18 seconds. When guilty ones are arraigned each person in the auto is ready to swear that the vehicle was not exceeding the lawful speed (12 miles an hour), although neither looked at the speedometer nor timed the machine. The policemen, however, use a speedometer or watch. Their testimony is generally taken. It occasionally happens that parties not satisfied with the judgment of the Police Court are allowed to take appeals to the Corporation Court.

WORK AS THE REMEDY

Shortages of almost everything that the American people eat, wear or use are given as an excuse for high prices. The country has recently undergone a period of strikes during which production was curtailed, and the shortages increased. Still, it seems that the people are so determined to spend their earnings, that they must have short work hours in order to have time for spending. The more time they have for spending the more money they must have to spend.

It is suggested by an exchange that economists and many thoughtful men have declared that the remedy for high prices, the remedy for present unrest, is more work. One of the candidates for the presidency has stated his creed as being "an honest wage for an honest day's work."

OUR PRESIDENTS

Of the 27 men who have been President of the United States, 1 were sons of farmers, 3 of clergymen, 2 of lawyers, 3 of merchants, 1 iron manufacturer, 1 tanner, 1 constable, 1 statesman and 1 jurist.

Farmers' sons evidently have a better chance of occupying the White House than any others.

The last farmer's son to attain the Presidency was Benjamin F. Harrison.

The fathers of Presidents Arthur, Cleveland and Wilson were preachers.

Fifteen Presidents were of English descent; 1 Welsh, 3 Scotch, 6 Scotch-Irish, and 2 Dutch.

Ten of the Presidents were not college graduates. They were: Washington, Jackson, Van Buren, Taylor, Fillmore, Lincoln, Johnson, Cleveland and McKinley.

Nineteen Presidents were lawyers at the time of their election. Washington and William Henry Harrison were the only farmers ever elected.

The religious inclinations of the chief Executives varied considerably. Eight were Episcopalians, 4 Unitarians, 7 Presbyterians, 2 Reformed Dutch, 4 Methodist, 1 Disciple and 1 Liberal. Garfield belonged to the Disciples, Jackson was the Liberal, Van Buren and Roosevelt the Reformed Dutch, and the two Adams, Fillmore, and Taft the Unitarians. Some authorities claim that Andrew Johnson was not a member of any church, but that his wife belonged to the Methodist congregation.

Eight Presidents were born in Virginia, Washington, Jefferson, Madison, Monroe, William Henry Harrison, Tyle, Taylor and Wilson.

Six Presidents were Ohioans by birth—Grant, Hayes, Garfield, Benjamin Harrison, McKinley and Taft.

Buchanan and Cleveland were the only bachelors elected President. Cleveland married during his first term, but Buchanan stuck it out for life.

Cleveland was christened Stephen Grover, Grant was named Hiram Ulysses, and Wilson, Thomas Woodrow.

Lincoln, Garfield and McKinley were assassinated while in office.

Dick Lawrence, a house painter, tried to kill Andrew Jackson at the Capitol in 1835. The pistol, however, missed fire. After his retirement from the Presidency, Roosevelt was painfully shot at Milwaukee.

William Henry Harrison was the oldest President and Roosevelt the youngest. The former was 68 and the latter 42 at the time they assumed office. Harrison broke all records as to the number of children. He was the father of six boys and four girls. Rutherford B. Hayes ran him a close second with seven sons and one daughter.

Washington, Madison, Jackson and Polk were never blessed with any children.

John Adams, Thomas Jefferson, and James Monroe died on the Fourth of July.

"Friday" is Woodrow Wilson's lucky day, and "13" his lucky number. There are 13 letters in the name Woodrow Wilson.—(Dearborn (Mich) Independent.

DRY PROBE NOT FAVORED

Ward Sent to General Assembly Proposed Measure do Not Pass

Richmond, Feb. 27.—With the recommendation that it do not pass, the Senate Moral and Social Welfare Committee Tuesday afternoon reported out the Joyce resolution, calling for an investigation of the Prohibition Department. The vote was 6 to 4, although the members were equally divided, and one vote was switched to enable a report to be made.

That the investigation is not necessary, is the consensus of opinion in the committee. Even those not favorable to prohibition agreed to that, but there was a question of opinion whether in justice to Dr. J. Sidney Peters, the Prohibition Commissioner, the probe was desirable.

Senators Mapp and West, leaders of the dry forces in the Senate, opposed the proposed investigation vigorously, but other dry workers were insistent that the Prohibition Department had nothing to be ashamed of and would court a probe.

This was the view of the House leaders, who united with the wets in a unanimous vote for a complete investigation.

TO AVOID THE "FLU"

First of all, Make Sure Your Blood is Red and Rich—in Fighting Trim Safety in Vigorous Blood

If You're Listless and Depressed Don't Delay a Minute—Get a Good Tonic

If you get the influenza, see a doctor at once—but why get it? Isn't it worth while, instead, to take every precaution now, against getting it?

Probably the best and first thing to do is to make sure you are in good physical condition. During an epidemic almost wherever you go you are exposed to influenza. As long as you are really well, the red corpuscles of your blood fight off and defeat disease germs. But when you are tired and run down, when you feel all right except that you haven't much energy or enthusiasm, your blood is tired out too, and you are an easy victim.

Pepto-Mangan has become famous as a builder of rich, vigorous blood. It helps you up when you are run down. It helps you avoid illness. Or, it helps you recover, if you realized your poor physical condition too late.

Physicians have been recommending Pepto-Mangan for years, in cases of anemia (bloodlessness). It is reliable, effective, and has a record of over twenty-five years success. Take no chances with a run-down condition. Get Pepto-Mangan today. It is good health insurance.

Pepto-Mangan is sold in liquid and tablet form. There is no difference in medical value. Take either kind you prefer. But be sure you get the genuine Pepto-Mangan—"Gude's." The full name should be on the package.

What Is Corset Comfort Worth to You?

It's priceless, isn't it? Priceless as a matter of feeling; and did you ever stop to think that it is priceless as a matter of appearance? It is. Only the woman who is unconscious of her corset because of its precious comfort is the admired woman. The day of the obviously corseted woman has gone and the fashionable woman of today, who so successfully wears the smart modes, is the woman so deftly corseted that the most critical observer cannot trace her grace and beauty to that skillful artistry that has famed American Lady, R. and G. and Nemo Corsets wherever men admire beautiful women.

EVERY AMERICAN LADY CORSET
Is worth every cent you pay for it

A few dollars invested in an American Lady will save you—Oh, it cannot be expressed just in dollars and cents, it will have to be realized in blessings that are beyond price—style, comfort and health.

We will take personal pride in helping you spend your corset dollars wisely.

Coffee

Breakfast as the first meal of the day is one that deserves the most careful planning and thought. A fickle appetite can be tempted by the attractive appearance of the table, and it is at breakfast time that appetites are apt to be fickle.

Most of the work of the world is done on strength obtained from the morning meal, and yet too often the business man and the business woman start the day's work fortified only by coffee and rolls. Children should always have a substantial first meal. Grown-ups who have any difficulty at all with indigestion will find greater comfort if they make the morning meal heavier than they have been accustomed. There are two reasons for this: First, the stomach is rested and in the best condition for its work. Second, and perhaps more important, custom has ordained that dishes served at the morning meal shall be simply cooked. No sauces, combinations, or mixtures add their complications to digestion.

Even though the breakfast is of the simplest description, perfect service is possible. Breakfast linens today may be gray or tan linen, and embroidered in linens to match the china used. Color in fruit or flowers as a centerpiece may be neglected at luncheon or dinner, but must never be forgotten at breakfast time.

If plate doilies are used, the service plate belongs on each, with the knife at the right and a cereal spoon beside it. At the left of the plate place the fork, and at the left of the fork the napkin. Lay the bread and butter plate on a small doily at the tip of the fork with the butter spreader across the upper right-hand side. The water glass should be placed on a small doily at the point of the knife. For all breakfasts where fruits are served, the finger bowl should be placed in front of each plate. Where orange juice is served in glasses, as in the breakfact illustrated, the finger bowls are omitted.

The coffee service should be placed at the right of the hostess. An attractive arrangement is to place coffee urn, creamer, sugar bowl, and cups and saucers on a tray placed on the table, or the coffee pot or percolator may be placed at the hostess' right on a heat-proof tile. Each family has its own individual ways of serving coffee. To some the beverage is ruined unless it is poured bright and golden upon the sugar, with the cream added last. Others prefer to add both cream and sugar before the coffee is poured. It is the pleasure of the hostess to learn each preference and meet it.

The simplest meal of fruit, toast or muffins, and coffee requires only a few moment's work when electric table appliances are available. First, grind the coffee; then fill the percolator with water and coffee in the correct proportions. Do not try to make two cups of coffee in a five-cup percolator. If it is an electric percolator allow fifteen minutes for percolation. While the coffee is percolating set the table, slice the bread for toasting, and squeeze the juice from one orange for each person. Frappe it in a shaker with a generous piece of ice and pour it just as you are ready to serve the meal. If muffins are to be made, start them immediately after you have ground the coffee but be sure to light the oven before you start to grind. There will be just enough time to mix the muffins batter before the oven is properly heated. Bake ten minutes if in small muffins; large ones will take twelve to fifteen minutes. Such a meal should be served within fifteen minutes of the time you start, if toast is served, and twenty minutes when muffins must be made, provided one has a mental picture of the muffin receipe memorized.

It will take a little longer to brown the mush for the next breakfast fruit, fried mush with sirup, coffee, and toast, but even so the meal will be ready in twenty minutes. Season the flour with salt and pepper, dip the slices, and saute' in hot bacon fat until they are golden brown.

It will take no longer to serve a breakfast of cereal and cream, toast and coffee, provided you have cooked the cereal in a double-boiler the night before. Even if you have not, with most of the prepared cereals and with the package cereals that have had some cooking in manufacture, time has been so shortened that oats, corn and wheat preparations, for instance, can all be acceptably served with cook or fifteen minutes cooking.

VIRGINIA NEWS

Mrs. Virginia Mortimer Boyd, wife of Dr. Philip W. Boyd, a leading surgeon and physician, and daughter of Capt. and Mrs. Mortimer Rogers, of Roanoke, died at Winchester yesterday following an operation for complications. Dr. Boyd himself submitted to blood transfusion late Wednesday night in an effort to save his wife's life.

Joseph Yancey, aged 50 years, a farmer, killed himself at his home near McGaheysville, Rockingham county, by firing the contents of a revolver into his left breast. The body was found by members of the family, who were unable to assign any other cause than despondency for his rash act.

What is said to be a part of a nation wide movement to reduce the cost of living developed in Richmond yesterday, when railway workers there to the number of 500 signed petitions pledging themselves not to buy hats, suits or shoes until the prices come down. The purchase of edibles is also included, the workers being asked to refrain from purchasing anything but the most necessary articles.

With a cargo of iron ore, which is pounding her to pieces on the sand, the steamship Tallac, which went ashore off Fals Cape, 20 miles below Cape Henry, Tuesday, is expected to be a total loss. Capt. Carlson, of the wrecking steamer Rescue, reported yesterday that he had taken off the crew of the Tallac.

Because of an oversight when the Code of Virginia was revised two years ago, and which became effective January 16, the city of Harrisonburg now finds itself without a court or other legal machinery. Being a city, it is separate and distinct from the county of Rockingham, but under the old law the circuit court of the county was given jurisdiction in the city. Discovery of the error caused anxiety in legal circles. It was stated that the validity of all acts of the court and of the clerk affecting the city since January 16 may be questioned.

The postoffice safe at Boykins was blown open yesterday morning and $300 in cash, liberty bonds, war saving stamps and postage stamps of an amount as yet uncalculated were stolen. Boykins is in Southampton county and is about sixty miles from Portsmouth.

ITALY UNCHANGED BY NOTE

Paris, Feb. 27.—The attitude of the Italian government will remain unmoved by President Wilson's new Adriatic note in which he firmly maintains his veto of the allied "settlement."

An excellent authority quotes Premier Nitti as saying:

"A million Wilson notes cannot alter Italy's de facto possession of the territories she claims. Let Wilson dislodge the Italians if he can."

The same stand is reported being taken by Greece with regard to Smyrna which the supreme council has been alternately giving her and taking away from her. Greece has one hunderd thousand perfectly trained and equipped troops in Smyrna and shows no intention of withdrawing.

HOSTILE TO AMENDMENT

Change in Civil Service Retirement Bill Criticized by Gompers

Jacksonville, Fla., Feb. 27.—The executive council of the American Federation of Labor in session here yeterday telegraphed to Senator Myers protesting against his proposed amendment to the civil service retirement bill now before the Senate.

The amendment, it is held, would work an injury to Federal employes by depriving them of retirement benefits. Many members of the federation would be affected, it was said.

Myers' amendment provides that members of Federal employes' unions who are affiliated with the American Federation of Labor, or with other national labor organizations, shall not be eligible for the benefits of the retirement provisions.

The message was signed by Samuel Gompers and nine other labor leaders.

RESERVATION ADOPTED

Hitchcock Says Effect Recites Principle Already Established

Washington, D. C., Feb. 27.—One more Lodge reservation to the Peace Treaty was adopted by the Senate yesterday. Only four votes were cast against the reservation, while 86 Senators voted for it.

The reservation was No. 3, covering mandatories and providing that the United States would take no part in the establishing of mandates without specific authority in each instance from Congress. It is not an important reservation and before the roll call Senator Hitchcock stated that the Democrats were prepared to support it to an extent that made a ballot unnecessary.

BETTER THAN CALOMEL

Thousands Have Discovered Dr. Edwards' Olive Tablets are a Harmless Substitute

Dr. Edwards' Olive Tablets—the substitute for calomel—are a mild but sure laxative, and their effect on the liver is almost instantaneous. These little olive-colored tablets are the result of Dr. Edwards' determination not to treat liver and bowel complaints with calomel.

The pleasant little tablets do the good that calomel does, but have no bad after effects. They don't injure the teeth like strong liquids or calomel. They take hold of the trouble and quickly correct it. Why cure the liver at the expense of the teeth? Calomel sometimes plays havoc with the gums. So do strong liquids. It is best not to take calomel. Let Dr. Edwards' Olive Tablets take its place.

Headaches, "dullness" and that lazy feeling come from constipation and a disordered liver. Take Dr. Edwards' Olive Tablets when you feel "logy" and "heavy." They "clear" clouded brain and "perk up" the spirits. 10c and 25c.

Watch the Little Pimples; They are Nature's Warning

Unsightly and Disfiguring Signals of Bad Blood.

Pimples on the face and other parts of the body are warnings from Nature that your blood is sluggish and impoverished. Sometimes they foretell eczema, boils, ulcers, and other skin disorders that burn like flames and other skin irritations. It will of fire.

They mean that your blood is full of these impure accumulations that can cause unlimited trouble. This remedy is the greatest vegetable blood purifier known, and contains no minerals or chemicals to injure the most delicate skin.

Go to your drug store, and get a bottle of S. S. S. today, get rid of these unsightly, disfiguring pimples, cleanse your blood thoroughly. For special medical advice free, address S. S. S. to Mr. to it and cleanse it, Medical Director 41 Swift Laboratory Atlanta, Ga.

DODSON WARNS CALOMEL USERS

It's Mercury! Attacks the Bones, Salivates and Makes You Sick

There's no reason why a person should take sickening, salivating calomel when a few cents buys a large bottle of Dodson's Liver Tone—a perfect substitute for calomel.

It is a pleasant, vegetable liquid which will start your liver just as surely as calomel, but it doesn't make you sick and can not salivate.

Children and grown folks can take Dodson's Liver Tone, because it is perfectly harmless.

Calomel is a dangerous drug. It is mercury and attacks your bones. Take a dose of nasty calomel today and you will feel weak, sick and nauseated tomorrow. Don't lose a day's work. Take a spoonful of Dodson's Liver Tone instead and you will wake up feeling great. No more biliousness, constipation, sluggishness, headache, coated tongue or sour stomach. Your druggist says if you don't find Dodson's Liver Tone acts better than horrible calomel your money is waiting for you.

BABY SUFFOCATED

Philadelphia, Feb. 27.—Strapped in a high chair in a third story room Meyer Weiner, 20 months old, was suffocated by smoke yesterday during a fire which destroyed much of the interior of a house at 811 North Marshall street. The baby died at Roosevelt Hospital.

Mrs. Joseph Weiner, the child's mother, had been out of the room only a few moments when she noticed smoke and found her way to the room cut off by flames. A policeman made three efforts to reach the child, but was overcome by smoke. Finally George Ervine, chief of the Fourth Fire Battalion, got to the room, cut the child from the chair and carried him to the street.

Seven such cars already are operating across the continent, the announcement said, and 19,000 men and women have professed conversion in them, and 8,437 were baptist.

CAUGHT UNDER BED

Chicago, Ill., Feb. 27.—Hunting through a burglar's flat used as a storage warehouse for their plunder, the police discovered a rug rolled up and thrust under a bed.

Uncolling it they discovered a partially clad and vehemently protesting young woman. Taken to a police station, she gave the name of Helen Meiffer, and confessed to being a member of the burglar gang. Her statements helped the police in the arrest of several others of the gang. The girl acted as a "lookout" when burglaries were committed. Thousands of dollars' worth of plunder was recovered.

OPENS ATTACK ON COLBY

Washington, D. C., Feb. 27.—The first gun in the fight against the confirmation of Bainbridge Colby as Secretary of State was fired in the Senate yesterday by Senator Reed, of Missouri, who expressed the belief that Mr. Colby would require a long course of instruction in international affairs to fit him for his new office.

The Senate, it was clear, is prepared to hold up confirmation of Colby and Charles R. Crane, as Minister to China, for weeks to come. Meanwhile it was maintained at the Capitol that Mr. Colby cannot assume the duties of Secretary of State. A Cabinet appointment while Congress is in session, it was said, must be confirmed before the officer begins his work, but if the appointment is made during a recess the Cabinet member may assume the office on a recess appointment until such time as Senate shall pass upon his name. Attorney General Palmer, whose confirmation was long delayed, came into office on a recess appointment.

While it was the general belief today that Colby would eventually be confirmed, there will be a free expression of opinion before this is done. It was said today by some of the Senators that the Foreign Relations Committee might initiate an investigation as to the qualifications of Mr. Colby for the office, but this feature is left entirely with Senator Lodge.

Don't stay stuffed up! Quit blowing and snuffling! Clear your congested head! Nothing else in the world gives such prompt relief as "Pape's Cold Compound," which costs only a few cents at any drug store. It acts without assistance, tastes nice, contains no quinine—insist upon Pape's!

Overland

Rough Roads for Wheels Are Smooth Roads for Passengers

WATCH Overland 4 on rough cobbles or unpaved roads. The wheels follow surface inequalities, but the new *Triplex* Springs give car and passengers remarkable riding steadiness.

They give 130-inch *Springbase* to a car of 100-inch wheelbase.

This makes for the gently buoyant road action of a large, heavy car with the economy in upkeep, fuel and tires, and convenience of handling of a scientifically designed light car.

Auto-Lite starting and lighting, door-opening curtains and dash light give but a hint of the completeness and quality which characterize everything about Overland 4.

NEW WORLD PROGRAM DEVISED BY CHURCHES

By S. EARL TAYLOR

DR. S. EARL TAYLOR,
General Secretary Interchurch World Movement.

If Christ, on the day He was born, had started on a tour to preach in every village in Judea He would still have 40,000 more to visit

We now before us have found a way by which the leaders of the Protestant churches can sit around a common table and have the Christian program of the entire world laid before them. By means of the Interchurch World Movement we can see where the Methodists are, and where the Baptists are. We can see the general outline of their forces, their present status in this great world struggle, and may also have some idea of the unoccupied spaces, and what may be done toward going to enter these unoccupied parts of the world field which they have sent out to occupy.

CHURCHES PLAN BUSY PROGRAM

Interchurch World Movement Outlines Activities In South For Months Ahead

Beginning with a campaign of education of the church member to his financial obligation to the church, a comprehensive and continuous program of activities from the present time through the month of June has been decided upon by the Interchurch World Movement in the South. This campaign of education in the duty of giving to the support of religious activities is commonly known in the movement as the Stewardship campaign. It will culminate on Washington's Birthday in the observance of National Stewardship Enrollment Day in all churches participating in the movement, February 29, this year chancing to fall on Sunday.

The Stewardship enrollment observance will be followed by the observance of Sunday, February 29th, as Life Enlistment Day of Prayer for Students. February this year, for the first time in forty years, will have five Sundays. This fifth Sunday observance is to be made a day of significance throughout the Interchurch World Movement's organization.

The month of March is to be given over to the promotion of the campaign for life-work and evangelism, culminating in the observance of Acknowledgment Day on Palm Sunday, which this year falls on March 28th. Every church taking part in the movement is expected to hold special evangelistic services during the months. During March also there are to be held a series of state pastors' conferences in the principal cities of the South to bring the pastors more closely in touch with the purposes and scope of the Interchurch World Movement in its relation to the individual church, community and denomination.

Join the Church Day and Commitment Day, when thousands of new members are expected to be received into the churches in the South, will be observed on Easter Sunday, April 4th. This day will be marked by a great ingathering of Christians in the churches inspired with the thought and determination of doing a greater service for Christianity.

The next fortnight in April will be spent in active preparation for the great financial campaign to be conducted April 21st to May 2d, inclusive. Local teams and committees will be organized and thoroughly drilled in the duties to be expected of them in the making of this canvass for funds to carry out the constructive program of the churches.

Throughout May and the early part of June the Movement will be directed toward the organization and perfection of conservation and extension plans. Later in June summer conferences of missionary education will be held.

Poison Propaganda to Russian A. E. F. Revealed by U. S. Secret Service

Extracts from circulars published by the English-speaking Communists of Russia and distributed among the American troops in the North, in the past season of the U. S. Department of Justice.

"Comrades! Drop this dirty work! Turn your guns on your real enemies—the [illegible]

"You have arms. You know how to use them. Will you use the slaves, use them in defense of your master, or will you use them to help your class be free? If the former, then you know that you will meet with determined resistance of the united revolutionary people of East and Central Europe and History will be your judge. If the latter then, here's a hearty welcome into the ranks of international labor.

"[illegible] you to understand that every [illegible] in the world—dwindling your own—can become a socialistic [illegible] country, if only it follows the Russian example. Every nation in the world—including the 'yankee race'—can become a really free nation, if it only does away with the trusts, the money lords and the bloodthirsty exploiters. It is up to you American soldiers to do[illegible]. It is up to you to bring the great lesson of the Russian Revolution home to your toiling and suffering brothers. It's up to you to start it there—in your own America, you just start it—and your brothers will follow you! You just dare! You have nothing to lose but your chains. You have a world to gain.

"You just dare to take home with you the Red Banner of the Revolution—and inscribe upon it:

"Down with capitalism!
"Long live Industrial Freedom!
"Long live Socialism!"

"You probably would let us alone and go home, if your officers would let you. But they do not intend to let you do so. You are under their orders, and they are under the orders of "higher ups," and those are under the orders of "still higher ups," etc. At the top of the whole pile are the wealthy capitalists who want to get their greedy hands upon the mines and factories, railways, etc., of Russia. That is the reason you are here to rob workingmen and make millionaires richer.

"We know that you are bound, hand and foot by discipline and have been blind tools of what you were doing here or why you came. The only way that you can do the decent thing is by breaking the discipline that drives you to this crime against your own kind the world over—class.

"The war is over. There is no longer reason for you to submit to military orders. You are not fighting German militarism. You are submitting to it when you obey the commands of your own officers.

"You can break away. We know that you can, if provoked. You are powerful enough and numerous enough to control the officers or to do with them what you please. Or you can come over to us."

Dardanelles Never Closed Again to British, Says Lloyd George

London, Feb. 27.—"When the treaty with Turkey is published the greatest enemy of the Turk will realize that he (the Turk) has been humanity punished for his follies, blunders and crimes," said Premier Lloyd George in the House of Commons yesterday in announcing that Turkey is to remain in Europe after all, retaining Constantinople.

The Dardanelles, however, will be kept open by the constant presence of allied war ships, the Premier said.

Indirectly he admitted that retention of the Turk in Europe was dictated primarily by regard for the feelings of the Mohammadan world for which the Sultan is the head of their church.

Part of the Premier's speech dealt briefly with reference to armed force.

"Minorities will be protected not by diplomatic notes," he said, "but the Turk's knowledge that he is under the menace of British, French and Italian guns.

"Turkey's forts will be dismantled and she is not to be permitted to have troops near the straits.

"It has been decided to leave the Turks Constantinople, but it would be the height of folly to leave the guardianship of the Dardanelles to the people who betrayed them once.

"The gates will always be kept by the Turks by the strength of the ship again."
